

SEAFORD YELLOW v DMJFC

Round 2

Brendon & myself were really pleased with a really spirited second half to the match against Seaford this week. The intensity & enthusiasm lifted after half time & the whole team can be very proud of their efforts. Despite some niggling from the opposition we managed to keep our cool & walk off the ground knowing we played the game in the right spirit.

Some injuries in the first half also didn't help with the structure we were trying to put in place. Having said that there were some very memorable moments in the game that showed what we can do. Rory Thompson's impersonation of a rodeo rider on one of the biggest opposition kids typified the desire for the contest required to be successful. Keenan's solo run out of the back line as he was being pursued by 3 opponents again typifies our much improved effort in the second half.

It's really important for all players to not only get to training on Wednesday but to be switched on so we can work on the areas of our game that let us down in the first half. We play how we train. Great effort on the track = great effort on Sunday.

GO PANTHERS!!! Justin
